COLORED CHURCHES. By an inadvertency in making up the form yesterday, the concluding part of the Report in relation to the case of the Colored Churches was omit-

ted. It was as follows:

Hon John C. Spencer of Albany, opposed the recoption of the resolution. He argued the necessity of a new application from the Churches.

Mr. Jay considered that the application, once made, continued in full force to the present time, without a renewal. He entreated the members the Convention to put an end to the agication and

The CHAIR, however, decided that there was no application before the Convention, and that accordingly the motion of Mr. Jay was not in order.

Mr. Jay made an appeal from this decision.

Dr. HAWKS followed in support of the decision of the Chair, and hoped the Convention would abide by the written regulation of the Journal. Mr. Jay then withdrew the appeal, but gave no-

tice that he should take an early opportunity to re-new the application of the Churches. The subject was then dropped.

INCIDENTAL BUSINESS.

On motion of Rev. Dr. HAWKs the Trustees of the Fund for Aged and Inform Clergymen, were appointed a Committee to obtain from the Legislature an act of incorporation for said Fund. Rev. Dr. BEDELL moved a resolution, request

ing the Standing Committee to report to the Convention the causes and grounds of their action upon the application of Christ Church, New-Brighton, for admission; with the documentary evidence in said

The question was first taken viva voce, but a di

vision was called for, when the resolution was lost by \$2 syes to 179 nocs.

The continued difficulties of the Diocess are alluded to by Bishop Whittingham, with the stression of a hope that they may soon be ended. The following clergymen have departed this life since the neeting of the Inst Convention: Rev. Amcs Pardee, Rev. Heary W. Sweetzer, Rev. Philip E. Milledoler, and Rev. Isaac Sharwood.

THE STATE OF THE DIOCESE.

Rev. Mr Parks then renewed his motion to take up the resolutions offered on the first day of the Convention, regarding the State of the Diocese: and said that he had been requested to withdraw them on the ground that it was inexpedient to asitate the question at the present time, and more particu-larly as a substitute had been offered; an exciting debate being evidently unavoidable if the subject should be taken up. Mr. Parks expressed his reluctance to bring up any topic which might create unpleasant feeling, and in deference to the wishes of others, older and more experienced than h he felt constrained to withdraw his preamble and

They were accordingly withdrawn. Dr. J. AUGUSTINE SMITH supposed that if the original resolutions were withdrawn, his own substitute must probably take the same course; and he also withdrew it. He did not, however, fear any great difficulty in the discussion of the question. For his own part, he was prepared to go into it with all the coolness of a mathematical

proposition. [Laughter] Rev. Mr. LEONARD of Emmanuel Church, Newrenewed one of the resolutions withdrawn York, fenewed one of the resolutions, as follows:

Slave Catching in New-York-First Case Under the New Law.

The following case, which occurred yesterday, is one of peculiar interest, from the fact of its being the first movement under the new Fugitive Slave Law. It will be noticed that there is very little of the "law's delay" here; the proceedings were as summary as an Arkankas court audience could desire.

U.S. Commissioner's Office-Before Commis

could desire.

U.S. Commissioner's Office—Before Commissioner Gardner - Examination as to James Hamlet, charged to be a functive slave, the property of Mary Brown of Battsmore—No person was present as counsel for accused, and only one colored man. Man Shot in Saybrook.—A man named Butler was shot near Essex in the town of Saybrook on Sunday right last. The particulars are as follows. A man named Daniels had been for some time engaged in fishing a short distance from the village, and occupied a small building near the river used for such purposes. On Sunday evening, about 10 ocices, Butler with two companions, disguised by o ciccs, futier with two companions, disguised by liquor, called at the fish house and demanded admittance, which was refused. After some threats the party returned to their boat, took some more liquor, and armed with clubs, again approached the house. Daniels in the mean time prepared himself with a gun and ax for any emergency. Not suc-ceeding in effecting an entrance at the door, they broke in a window, and Butler, who appeared to be the leader in the assault, was on the point of springing in when Daniels, who had previously in-formed him of his peril, shot him through the heart. The accomplices fled, and Daniels immediately in-

med his neighbors of the fact, and in the morndelivered himself up to the proper authorities in massex. The result of the examination we have not learned, though our informant is of opinion that he will not be held for trial. [N. Hav. Pal. 25th.

WELCH OUT ON BAIL - John Welch, charged with the murder of his wife, and throwing her in the well, was tried in the Supreme Court in Mansfield. Ohio, last week: but the jury could not agree, and he was admitted to bail for reappear-ance at the rext sitting of the court in the sum of \$3,000. We learn that ten of the jury were for conviction and two against. [Shield & Banner.

The House Carpenters met at Convention Hall, Wooster-st. for the purpose of electing officers. The meeting resulted in the reelection of James BASSETT, President; C. D. Hennessy, Vice President; Mr. Degraw, Recording Secretary; Mr. Cox as Marshal; Mr. Sikes, Door-keeper. The meeting was unsually large. An animated discussion ook place, upon the possibility of some avaricious borses making an attempt to cut down the wages. The Carpenters, however, resolved that they would resist any attempt to reduce their wages, which are now barely adequate to sostain a man with the responsibilities of life upon him, in any degree of comfort. A committee was appointed to call a public meeting of the Carpenters, and another committee to issue an address to the Carpenters of the sister cities of the State.

COURT OF OYER AND TERMINER .- This Court did not set yesterday. Mr. Clarke, on Thursday, al luded to the case of Samuel Drury, Jr., and wish ed it to be called on. Some action will probably be taken in regard to it on Monday.

FIRE .- Monday evening at half-past 8 o'clock, a fire broke out in the brass manufactory of C. L. Nichols & Co., in the rear of 247 Grand st. It was entinguished, however, shortly after being discovered and before much damage was done. Dam' age \$150. Fully insured.

NATIONAL LANCERS, BOSTON .- The National Lancers of Boston one of the best uniformed com. panies in the United States, will visit New York in the early part of next month, and exhibit to our citizens the perfection of their discipline. We understand that a committee appointed by the company, arrived here on Thursday for the purpose of selecting a place of encampment during their stay here.

THE NEW FIRE ENGINE .- On Monday eve ning about half past seven o'clock, a new fire en gine, by B. Tarr, of Albany, was tried by compa. ny No. 44, at the foot of Houston-st. The cylinder of this new engine, called Jenny Lind, is ten inches in diameter, and is placed in a horizontal position, while those of the ordinary engines are all perpendicular. It sent two powerful streams to the extraordinary hight of 145 feet. We are told that such is the power of the engine, that it burst all the hose, and one which was expressly made for this trial. It will propel three atreams as far as the common engines do one, and is, in every particular, better than these. Sixty-four men are required to man it, when playing in fal

### BROOKLYN ITEMS.

Another Desperado .- A man named Jacob ANOTHER DESPERADO.—A man named 32000 Henry was examined upon a charge of drunken ness and disorderly conduct and threatening to stab the watchman who arrested him. The defendant is a Dutch sailor, a rigger we should think, and after he was arrested and in the station-house became somewhat unruly and drew a knife upon Mr. Macnamara, the watchman who had him in charge. He was allowed to go, as his ship, which is lying at the Atlantic Dock, is to sail in a few days.

A HARD CASE.—A youth named John Dougherty was caught on Wednesday afternoon last, while attempting to rob the money-drawer of Mrs. Pearsall, in Bickest. He was handed over to the proper authorities and brought before Justice King yesterday, where he was recognized as the boy who, with others, broke into the house of Mr. Booth in Booth and who was recognized as the boy who, with others, broke into the house of Mr. Booth in Booth and who was recognized as the boy who. in Hudson av. some time last Spring, and who hav-ing been arrested for the offense was promised his liferty on condition that he would turn State's evi dence sgainst his accomplices. When the Grand Jury wanted him, however, he was not to be found, and the other culprits escaped their justly merited punishment. The Justice sentenced him to the House of Refuge in New-York.

FATAL ACCIDENT—A man named Cornelius Carrell, while driving an ox cart loaded with about sixteen hundred weight of grain along Kent-avon Wednesday evening last, fell from the vehicle and was run over, the wheels passing over one of his shoulders and side. His arm and several of his ribs were completely crushed. He was taken to his residence at the corner of Flushing and Van Nostrand avs. where his injuries were dressed by Dr. Betts. The unfortunate man was still alive yesterday morning, although he had been unable to speak since 10 o'clock the evening previous. There is not the lesst hope entertsined for his re-covery. He has a wife and six children who were dependent on him for their support.

THE WEALTH OF CALIFORNIA—Recent ac counts in part confirm the prediction of Com. Ap Catesby Jones, that forty millions will be obtained there during the course of another year, by working and cigging. That gentleman traversed the country with a view to a knowledge of its agricultural capabilities—he being a practical farmer himself—and he came to the conclusion that four-fifths of the country is valuable for agriculture. He saw wild oats and wild mustard covering fields as saw wild oats and wild mustard covering fields as far as the eye could reach, and of the most luxuri ant character. Large tracts had been cultivated in corn, and sifording every appearance of a heavy crop, in the dry and hot season. A ditch had been thrown up as a fence around this cornfield; and the earth thrown up and forming the embankment afforded a luxuruant growth of lettuce, onions, &c The country was a sheet of verdure, and yet with out a drop of rain. Neither is there any dew, as he had found by camping out in the hotest weather. There would seem to be something in the climate, soil or atmosphere, which supplies the place of rain soil or atmosphere, which supplies the place of rain and dews in the vegetable creation. Forests of white oak, whose trunks are six or eight feet in diameter, exist, and some of the trees are so an-cient that they are fit only for fuel. Timber is abundant and valuable. [Wash. Republic.

DR. JOHN M. BERNHISEL .- We have observed the progress of Congress in all its particulars in regard to their moves toward satablishing a Government for Deseret. Whenever any complicated matter came before Congress in regard to that far remote and inland country, we have always found Dr. Bernhisel at his post ready to explain matters and make them clear and plain; and whenever enemies have endeavored to influence Congress against that State, and make them believe that the whole of Deseret were not loyal subjects, he has been the first to stand up in behalf of the citi-zens of Salt Lake, and spurning the calumnies and censure which they unjustly poured upon them. Dr. B. went to Washington as agent for the people of Deseret, and we believe him to be fully worthy of Pleseret, and we believe that has been placed in him at Washington by Members of Congress. We suppose that he will return immediately to Salt Lake upon the adjournment of Congress, and make his report, which we feel confident will be gratefully received at the latter place. [Kanesville (lows) Guardan.

ELOPEMENT -A man eloped from Gorham in ELIGIEMENT — A man eloped from Gorham in this State, a few days since with a married female —leaving families of children to mourn the early less of their parents. It has created a great excitement in the neighborhood, as both parties maintained a respectable character in the town. GURES, AND NOT A SINGLE FAILURE!

DR. HASNINGS COMPOUND SYRUP OF NAPTHA.

CELEBRATED throughout both continents for its wonderful cures of consumption, astims, decline, spitting of blood, night aweats, difficult breathing, coughs, colds, and all diseases of the chest and lungs.

Its effect upon the system is mild and soothing, at the same time certain and efficacious—rarely failing to give rottef upon the first application, and by repeating it a few times—a permanent cure is effected.

The proprietor, therefore, not only recommends his Naptha Syrup, but warrants it to cure—He warrants it to zero upon the chyle, and purify it; be warrants it to remove all impediments which retard the free cir ulation of the blood, he warrants it to open the internal and external pores of the body, and eject all the obnoxious particles which have accumulated in the system; be warrants it as ever-failing remedy in Curing Diseased.

remedy in CURING DISEASED LUNGS, hectic fever, night aweats, dysponsia, liver complaints, pain in the chest and asthms; and he warrants it to arrest the formation of tubercles in the lungs and to heal those already formed, so that persons in consumption may take it with the most positive confidence of a circ, for its great seat of action is the Lungs, which it penetrates in all directions, purifying them of everything obnoxions in its progress, and which, irapplied according to directions, cannot fail to leave in a perfect healthy condition.

Dr. Hastings' Compound Syrup of Napina is highly recommended by the medical profession. That eminent physician, Dr. Mott, of New-York, asys, "that as a pulmonic remedy it cannot be too highly praised." Dr. Arold, of the Marine Hospital, Savannah; Dr. Ware, of Liverpool, England: Dr. Boyd, of Lancaster; Dr. Hamilton, of Sath; and those enthenst English publications, the London Lancet, the Medical Journal, and Bratinwatic's Retrospect, all secord to it the most convincing certificates of its virtues.
